

The integrity of design and quality of the Executive Office Group continues in executive and secretarial chairs designed by George Nelson and Charles Eames. These chairs provide the opportunity to introduce either subtle or gay colors of upholsteries designed by Alexander Girard, as well as unusual seating comfort. Complete upholstery and fiberglass color samples are in the Herman Miller catalog.

The Herman Miller catalog also displays a complete selection of general office seating including side chairs and soft seating.

Herman Miller's Executive Office Group, designed by George Nelson, provides an uncommon degree of flexibility. Choose your top, pedestal and 'L' unit to design a desk tailored to your working requirements in your choice of the finest oil finishes or laminates. This same flexibility allows you to choose twenty or two hundred desks providing each individual user a unit designed to his needs while enhancing overall visual esthetics and remaining within budget.
